To whom it may concern,

I am writing on behalf of Shaun Brady, a dancer and artist that I have had the pleasure of working with over the past seven years. I am the studio owner and director of PowerUp Dance Center where Shaun trained and was a featured, anchor member of our dance company and now is a member of our faculty.

Throughout his time as a student, Shaun accelerated and achieved many top adjudications and titles at competitions. He not only worked tirelessly at perfecting his technique but emerged as a true artist. He conducted himself in classes and rehearsals with respect and thoughtfulness always displaying such a fabulous work ethic. It was such a pleasure to have him in class or in a piece of choreography, not just because of his talents, but because you could tell there was no place else he would rather be.

Fast forward to the present time and Shaun is now thriving as one of our faculty members teaching all levels of acro to both our competitive and recreational students. The students absolutely adore, respect and look up to him as a teacher and as a performer. We all love his artistic concepts with choreography as well as his knack for mixing sounds and music to tell a story and bring a piece to life.

This past year he was also invaluable with the technical side of our performances with running and programming sound and lights. He truly has everything to offer, is always willing to be a team player, and pitch in doing whatever is needed in the moment to live up to "the show must go on" philosophy that so many of us live by in our field. He is talented and he just always figures things out. Such a pleasure to work with and so very versatile and trusted.

Best Regards,
Jodi Macias
